

Zero-Budget Marketing Playbook

Win your first clients over 90 days — with no ad spend.

A 90-day, step-by-step plan to market Evarca — your all-in-one, customizable system for HR, operations & OKRs that even works with WhatsApp. Built for someone who has never done marketing. Open it each morning and do exactly what the day says.

 UAE / Gulf

HR · Operations · OKRs

Customizable · WhatsApp-integrated

Office SMBs & startups · 10–100 staff

Faceless brand content

LinkedIn + Instagram + Outreach

Evarca — all-in-one HR, operations & OKRs for UAE teams · Prepared July 2026 · Follow it day by day.

0 Start here — read this once

You are running **two engines at the same time**. One brings clients this month. One makes the first one easier.

Engine 1

Outreach (fast money)

You message business owners directly every day. This is what lands clients **this month**. Sections 3–4.

Engine 2

Content (compounding trust)

You post on LinkedIn & Instagram so that when people check you out, they trust you and reply. Sections 5–7.

THE 5 RULES OF THIS PLAYBOOK

1. **30–45 minutes a day.** Every working day (Mon–Fri) do two things: reach out to 10 people, and post/engage. That's it.
2. **You are not "selling software."** You are removing one expensive fear: getting UAE payroll/WPS wrong, and drowning in HR admin. Sell the **relief**, never the features.
3. **Copy the scripts.** Every message and post you need is written out. Where you see a green **SCRIPT** box, copy it, swap the **[brackets]**, send.
4. **Follow up 5 times.** Most clients say yes on the 3rd–5th message, not the 1st. This is the #1 thing beginners quit too early on.
5. **Consistency beats perfection.** A rough post today beats a perfect post next week. Just keep going.

What a realistic Month 1 looks like

100+

companies contacted

15–30

real conversations

3–7

demos given

1–3

pilot clients

300–500

new followers

*These are normal **Month 1** numbers if you show up daily. Some days feel like nothing happens — that's the job; the follow-ups and consistency are where it turns. **Full 90-day, month-by-month outcomes are in Section 8.***

1 What you're actually selling

Before any marketing, you must be able to say what Evarca is in one breath. Memorise this.

THE ONE-LINER (MEMORISE WORD-FOR-WORD)

"Evarca runs your whole team from one screen — HR (attendance, leave, payroll), daily operations (tasks, checklists, tickets) and goals (OKRs) — and keeps your UAE payroll WPS-compliant."

YOUR 4 UNFAIR ADVANTAGES (USPS) — LEAD WITH THESE

1. **All-in-one.** HR + operations + goals in one login. Most tools do only one slice — you run the whole team.
2. **Fully customizable.** Molded to how **you** work — not a rigid template you're forced to fit. Kills the "but our process is different" objection.
3. **Works with WhatsApp.** Approvals, reminders and updates run through the app your team already lives in — no new habit to force on anyone.
4. **Optional custom app.** Want your own branded mobile app? We'll build it — something most software simply can't offer.

*In public posts, frame #1 as "most tools make you choose — Evarca doesn't" rather than "nobody else has this" (more believable, just as strong). **WhatsApp** and **customization** are your sharpest angles in the UAE — use them early and often.*

The villain you attack (not competitors — this)

A team run on scattered tools. Attendance on WhatsApp. Leave on Excel. Payroll by hand. Tasks and follow-ups lost in chat. Goals in a spreadsheet nobody opens. Nobody quite sure who's doing what — and one missed WPS deadline away from frozen hiring. **That mess is the enemy.** Every post and message points at **that pain** — never at "we have more features than X."

Who exactly you're targeting (your ICP)

The company

UAE-based · **10–100 employees** · office / services / tech / agencies / clinics · running **HR and daily operations** on spreadsheets + WhatsApp.

The buyer (who you message)

Founder / owner, HR manager (often "HR of one"), **operations manager**, or **finance manager**. Small company = the owner decides fast.

The 3 things they actually buy

1

Compliance safety

"Never miss a WPS salary deadline again." Fear of fines & blocked work permits. **Strongest hook.**

2

One tool, not five

HR + operations + goals: attendance, leave, payroll, tasks, checklists, tickets & OKRs. Replaces your HR software **and** your task apps.

3

Visibility & control

See who's in, who's on leave, who's doing what, and who's hitting goals — live, from your phone. One-click approvals.

Say this, not that (kill the jargon)

✗ Don't say (feature-speak)

✓ Say (pain + outcome)

"HRMS with modular architecture"

"One place to run your whole team."

"Geofenced attendance capture"

"Know who clocked in — from your phone."

"Task & checklist management module"

"See who's doing what — stop chasing updates on WhatsApp."

"OKR & performance module"

"Set goals your team actually hits — progress live, in one place."

"WPS-integrated payroll engine"

"Pay everyone on time and stay compliant — automatically."

"Configurable workflows / rules engine"

"We shape it around how you already work."

"WhatsApp Business API integration"

"It works with your WhatsApp — no new app to force on your team."

"White-label mobile application"

"Want your own branded app? We'll build it."

YOUR UNIVERSAL POSITIONING SENTENCE — USE IT IN EVERY BIO, DM AND EMAIL

"We help UAE companies (10–100 staff) run HR, daily operations and team goals in one simple system — and stay WPS-compliant."

2 Your launch offer — how the first clients actually happen

With no budget and no track record yet, you win with an offer so low-risk it's almost rude to say no. This is the single most important page.

THE MOVE — "THE FOUNDING 10"

Give the **first 10 UAE companies Evarca free for 3 months**, and **you personally set it up, tailor it to their workflow, move their data in, and connect their WhatsApp**. In return you ask for three things:

1. **Honest feedback** as they use it.
2. A **short testimonial + their logo** — only if they like it.
3. **Two introductions** to other UAE business owners.

After 3 months, the ones who love it convert to paid. The ones who don't cost you nothing — but gave you feedback and proof.

WHY THIS WORKS (THE PSYCHOLOGY)

- **Removes all risk** → no money, no setup effort for them = an easy yes.
- **Builds your proof engine** → testimonials, logos and case studies that make every future pitch convert.
- **Reciprocity** → because you set it up for them, they feel they owe you a fair trial.
- **Scarcity** → "only 10 spots" creates urgency and makes free feel valuable.

SCRIPT — THE OFFER (SAY / SEND THIS)

I'm onboarding **10** UAE companies onto Evarca free for 3 months – I'll set it up, tailor it to how your team works, move your data across, and connect your WhatsApp. All I ask is honest feedback. If it saves you time, we talk about continuing. If not, no cost and no hard feelings. Want one of the spots?

ALWAYS ATTACH A NUMBER TO "FREE"

Free with no price attached feels cheap. Free against a visible price feels valuable. Even before you finalise pricing, say: **"This is normally around AED []/employee per month — free for the first 10 companies."** Pick a placeholder price and use it consistently (e.g. a small per-employee monthly figure with a minimum). You can adjust later.

SCRIPT — CONVERTING A PILOT TO PAID (END OF MONTH 3)

You've run **[X]** payrolls and **[Y]** leave requests through Evarca with zero WPS misses. To keep it running it's AED **[]**/month. Want me to keep your account active? I'll handle everything – nothing changes for your team.

3 Where to find clients — build your 100-company hit list

Your Week 1 job: a simple Google Sheet with **100 target UAE companies** and a contact for each. This list is your goldmine — you'll work it every day.

BUILD THIS SHEET FIRST (FREE — GOOGLE SHEETS)

One row per company. Columns:

Company

Contact name

Role

LinkedIn URL

Email

Channel

Status

Last touch date

Notes

Status values: No reply · Replied · Demo booked · Pilot · Paid · Dead. Update it every single day.

The 9 places to get those companies & contacts (all free)

Source	How to use it
1. LinkedIn Sales Navigator 1-month free trial	Best single source. Filter: Location = UAE; Headcount 11–50 & 51–200 ; Industries = IT, Marketing, Services, Construction, Retail, Healthcare; Seniority = Owner / Founder / HR / Operations. Save leads to a list.
2. Apollo.io free plan	Filter UAE + 10–100 employees + titles (Founder, HR Manager, Ops Manager). Gives you verified emails with free monthly credits. Export to your sheet.
3. Free-zone directories public listings	DMCC, IFZA, Meydan, SHAMS, RAKEZ publish member companies — thousands of SMEs. Grab names → find the owner on LinkedIn.
4. Google Maps	Search "marketing agency Dubai", "clinic Business Bay", "companies JLT". Open website → Team / Contact page → get the decision-maker.
5. Instagram	Search UAE business hashtags & location tags (see Section 6). DM active business accounts.
6. Communities & events warmest leads	Startup Grind Dubai, Meetup "founder/entrepreneur" groups, In5, AstroLabs, Dubai Chamber events, coworking spaces (Nook, Nest, WeWork). Turn up, collect contacts, follow up online.
7. WhatsApp / Telegram groups	Dubai SME, founders, and networking groups. Join, be genuinely useful for a week, then DM privately — never spam the group.
8. Your own network start here Day 1	Everyone you know who runs or works at a UAE company. Warmest possible leads. Message them first (script in Section 4).
9. Referrals	After every good conversation, ask for 2 intros. It's built into the Founding 10 deal. This becomes your biggest source over time.

GETTING THE DECISION-MAKER'S EMAIL (FREE)

Find them on LinkedIn → connect. Need their email? Use **Apollo** or **Hunter.io** free credits, or guess the pattern ([firstname@company.com](#)) and verify it free at NeverBounce / Hunter's verifier before sending. Never blast unverified emails — it hurts you.

4 Outreach that gets replies — your client engine

This is the part that pays you this month. Message **10 new people every working day** and follow up religiously. The scripts below are ready — just swap the brackets.

THE 7 RULES (BASED ON 2026 B2B OUTREACH DATA — FOLLOW EXACTLY)

1. **Personalise the first line** to them (company, role, or something you noticed). Personalised messages get **2–3× more replies** than generic ones.
2. **Lead with their pain, not your features.** First sentence = their problem.
3. **Keep it short.** First message under **80 words**, one single ask.
4. **Make the ask tiny.** "Worth a 90-second demo video?" beats "Book a 30-minute demo." Low friction = more yeses.
5. **Follow up 4–5 times.** 80% of deals need 5+ touches; half of beginners never follow up once. **This is where you win.**
6. **Use two channels.** LinkedIn + email beats either alone. View their LinkedIn before emailing — they get the notification, and it warms you up.
7. **Best time (GST):** send **9:30–11:30am**; start sequences Monday, expect replies mid-week. UAE work week is Mon–Fri.

THE NUMBERS, SO YOU KNOW WHAT "GOOD" LOOKS LIKE

Cold email averages ~28% opens and ~3–5% replies; well-targeted, personalised outreach hits **10–20%+ replies**. At 10 messages/day you contact ~100 companies/month → expect **10–20 conversations** → a handful of demos → **1–3 pilots**. If your reply rate is under 5%, your first line isn't personal enough — fix that before anything else.

Script A — LinkedIn connection request (no pitch, just get accepted)

Hi [Name] — I work with UAE companies on simplifying HR & operations. Came across [Company] and thought I'd connect.

Script B — First LinkedIn message (once they accept)

Thanks for connecting, [Name]. Quick one — how are you handling attendance, leave, payroll and day-to-day tasks at [Company] right now? Most 10–100-person teams here run HR on spreadsheets and operations on WhatsApp, and it gets messy fast. I built Evarca to run all of it — HR, tasks and goals — from one screen, and it even plugs into your WhatsApp. Happy to send a 90-second demo — want me to?

ALTERNATIVE OPENER — LEAD WITH OPERATIONS (IF WPS ISN'T THEIR HOT BUTTON)

Some owners don't feel the compliance pain, but they feel the **chaos** pain. Swap your first line:

"Quick one — how does your team track daily tasks and who's doing what? Most UAE SMEs run it on WhatsApp + spreadsheets. Evarca puts tasks, checklists, HR and goals in one screen. Want a 90-second look?"

Script C — Cold email

Subject line — pick one (questions & numbers get opened most):

Quick question about [Company]'s payroll on spreadsheets?

The UAE WPS grace period is gone

[Name], HR still

“ **BODY — UNDER 90 WORDS, PAIN FIRST, ONE ASK**

Hi [Name],

Since June 2026, UAE salaries must hit accounts by the 1st of the month – miss it and you can be blocked from new work permits within days. Most [10–100]-person companies here still track attendance and leave on spreadsheets, which makes clean, on-time payroll hard.

Evarca puts HR, tasks, checklists and team goals (OKRs) on one screen – and keeps your payroll WPS-compliant.

I'm setting up 10 UAE companies free for 3 months (I do the setup). Worth a 90-second demo video?

[Your name] – Evarca

P.S. It works with your WhatsApp, and we tailor it to how your team already works.

Script D — The follow-ups (this is where the clients are)

“ **FOLLOW-UP 1 · +2 DAYS**

Hi [Name] – floating this back up. Want me to just send the 90-sec demo so you can see it? No call needed.

“ **FOLLOW-UP 2 · +4 DAYS**

One thing teams tell me: they stopped chasing attendance on WhatsApp and got payroll down to minutes. Happy to show you – yes?

“ **FOLLOW-UP 3 · +7 DAYS · GIVE VALUE**

Made a free UAE WPS 2026 compliance checklist – want me to send it over? Useful even if Evarca isn't a fit.

“ **FOLLOW-UP 4 · +11 DAYS · BREAK-UP**

I'll stop here so I'm not a pest. If simplifying HR & ops is ever on your list this year, I'm one message away.

Script E — Referral ask (after any good chat or a happy pilot)

Glad this is useful! Do you know 1–2 other UAE business owners buried in HR & ops admin? A quick intro would mean a lot – I'll take great care of them.

Script F — Warm network / WhatsApp (use on Day 1)

Hey [Name] – I launched Evarca, an all-in-one system for UAE companies: HR (attendance, leave, payroll) plus tasks, checklists and goals (OKRs) – one screen, WPS-compliant. I'm onboarding a few companies free for 3 months. Know anyone running a 10–100 person team who'd want in – or is that you?

Objection handlers (your USPs do the closing)

If they say...	You say (lean on a USP)
"Our process is different / we're not standard."	"Perfect — Evarca is fully customizable. We shape it around your workflow, not the other way round."
"My team won't adopt new software."	"It works with your WhatsApp — they approve and get reminders where they already are. Barely a new habit."
"We already use [tool] for tasks and something else for HR."	"That's the point — Evarca replaces both, so it's one login and one price instead of three."
"We'd need our own mobile app."	"We can build you a branded app — most tools can't offer that."
"It's not the right time."	"No problem — the free 3-month pilot means zero risk whenever you're ready. Want me to hold a spot?"

TRACK EVERYTHING

Log every message in your sheet with the date and status. Each morning: (1) send 10 new, (2) follow up everyone due, (3) update statuses. Simple and relentless wins.

5 Set up your profiles — do this on Day 0

Before you post or message anyone, make your profiles look legit. When someone gets your DM, the first thing they do is check you out. Faceless is fine — you use the brand, screen recordings and graphics, never selfies.

BRAND BASICS (KEEP IT CONSISTENT EVERYWHERE)

Colour	Emerald green #0E9F6E as the accent, on white / off-white backgrounds. Clean and calm.
Logo	One clean Evarca logo, same everywhere (profile pic on both platforms).
Tone	Clear, confident, plain English. Short sentences. Talk to one busy owner. No jargon.

LinkedIn — your Company Page (where buyers check you)

- **Tagline / headline:** "One screen for HR, operations & OKRs — customizable, WhatsApp-integrated, WPS-compliant. For UAE teams (10–100)."
- **Banner image:** green background, the one-liner in big text + your website.
- Add a **"Book a demo"** button linking to your demo/booking link.

“ ABOUT SECTION — PASTE & EDIT

Evarca is an all-in-one platform to run your whole team. HR (attendance, leave, payroll), daily operations (tasks, checklists, tickets) and goals (OKRs) – one simple screen, fully WPS-compliant.

Fully customizable to your workflow. Works with your WhatsApp. Need your own branded app? We build that too.

Built for UAE teams of 10–100 who've outgrown spreadsheet-and-WhatsApp admin.

→ See a 90-second demo: [\[Link\]](#)

LinkedIn — your personal profile (this is where reach comes from — you post from here)

- **Headline:** "Helping UAE companies run HR, operations & goals in one place | Founder, Evarca"
- **Featured section:** pin the 90-second demo video + the free WPS checklist.
- You don't need to show your face — but posting from a **person** gets far more reach than a logo-only page. Post from here, reshare to the Page.

Instagram — Business account (reach + credibility)

- Switch to a **Business account** (free — gives you analytics & a contact button).
- **Handle:** @evarca (if taken: @evarca.hr / @getevarca).
- **Name field** (this is searchable — put keywords): "Evarca • HR & Ops Software UAE".
- **Highlights:** Demo · HR · Tasks · OKRs · WhatsApp · WPS · Free Checklist.

“ BIO — PASTE & EDIT

Run your whole team from 1 screen 

HR · Tasks · OKRs · Payroll (WPS)

Customizable · Works with WhatsApp

Stop juggling 5 apps 🙌

[\[link – demo or free checklist\]](#)

Link tool: use your website or a free link-in-bio page that points to the demo + the free checklist.

6 What to post — the faceless content engine

Two platforms, two jobs. Post **3–4 times a week on each** + a Story most days. You never show your face — you show the product, the pain, and useful HR & operations knowledge.

LinkedIn = your buyers

Priority. This is where UAE founders, HR and ops managers are. Clients come from here. Post from your **personal profile**, reshare to the Page.

Instagram = reach & proof

Builds credibility and a following. Repurpose the **same ideas** as Reels & carousels. Great for the free-checklist lead magnet.

FORMATS THAT WIN IN 2026 (USE THESE, IN THIS ORDER)

- LinkedIn** **Carousels / PDF "documents"** get the most engagement (~7%), then **text posts** (your point of view), then **short screen-recording videos**. **Never put a link in the post body** — link posts get about half the reach. Put the link in the **first comment**.
- Instagram** **Reels** (15–30s screen recordings of Evarca), **carousels** (saveable tips), **Stories** (polls & quiz stickers drive reach). No TikTok watermarks. Put keywords in the caption.
- What ranks** Shares & saves > comments > likes. Make posts people **send to a colleague** or **save for later**. On LinkedIn, the first hour of comments matters — reply to everyone fast.

Your 6 content pillars (rotate through these — never run out of ideas)

Pillar	What it does	Example topics
1. Compliance & WPS authority + fear	Positions you as the expert and triggers loss-aversion. Your strongest pillar.	"The WPS rule that can freeze your hiring" · "The 15-day grace period is gone"
2. HR how-to / tips value → saves & shares	Genuinely useful → people save & share → reach grows.	"How to calculate UAE gratuity" · "A leave policy that works" · "Onboarding checklist"
3. Operations & tasks the "chaos" pain	Speaks to the mess of running a team on scattered chats. Widens your audience beyond HR.	"Make WhatsApp actually work for your team" · "The one-page daily checklist" · "Who's doing what?"
4. Goals & OKRs ambition + control	Owners want their team hitting targets. Positions Evarca as a growth tool, not just admin.	"Why teams miss targets" · "Set OKRs that actually stick" · "Goals that live in one screen"
5. Product in action screen recordings	Shows how easy Evarca is — HR, tasks & goals — without a sales pitch.	"Approve leave right in WhatsApp" · "Assign a task & track it" · "Team OKRs update live"
6. Proof & behind-the-scenes social proof + human	Pilot quotes, before/after & build-in-public make the brand feel alive & trusted.	"Payroll: 2 days → 20 minutes" · testimonial cards · "Building Evarca — week 1"

YOUR BEST DIFFERENTIATOR CONTENT (POST THESE OFTEN)

WhatsApp integration and **"one customizable platform vs 5 rigid apps"** are your most shareable, most convincing angles in the UAE. Show them: a Reel of an approval happening **inside WhatsApp**, a carousel comparing "5 disconnected tools" vs "one Evarca," and a post about tailoring the system to a client's exact workflow.

THE BRIDGE FROM FOLLOWERS → CLIENTS: LEAD MAGNETS

Give something free to turn a follower into a lead. Best ideas for Evarca: a **"UAE WPS 2026 Compliance Checklist"**, an **"HR Policy Template Pack"**, a **"Leave & Gratuity Calculator"**, an **"SOP / daily-operations checklist pack"**, and a **"Simple OKR goal-setting template"**. Then the CTA does the work:

"Comment 'WPS' (or 'OKR') and I'll DM you the free template."

Every comment boosts the post **and** gives you a warm lead to message. This is the highest-leverage move in the whole plan — build the WPS checklist on Day 0.

Hooks — the first line is 80% of the job

People decide in one second whether to keep reading. Steal these templates (fill the brackets):

- "The **[law/deadline]** most UAE owners don't know about."
- "If you run payroll on a spreadsheet, read this."
- "Miss the WPS deadline — here's what happens on **day 5**."
- "**[Team size]** companies waste **[X hours]** a week on this."
- "3 HR mistakes that cost UAE companies real money."
- "Stop doing **[painful thing]**. Do this instead."
- "How to **[outcome]** in **[time]** — without **[pain]**."
- "Nobody talks about this UAE HR rule..."
- "We cut one company's payroll from 2 days to 20 minutes. Here's how."
- "Your HR is probably leaking hours here."
- "Your team isn't lazy — your process is invisible."
- "If your to-do list lives in WhatsApp, read this."
- "Why your team keeps missing targets (it's not effort)."
- "If your OKRs live in a spreadsheet nobody opens..."
- "Your team lives on WhatsApp. Your software should work there too."
- "Nobody wants another app — so we plugged into the one they already use."
- "'Our process is different.' Good — this one bends to fit it."
- "Most tools make you choose: HR or tasks or goals. Why not all three?"

CAPTION FORMULA (EVERY POST)

1. **Hook** — one punchy line.
2. **Problem** — 1–2 lines of the pain.
3. **The shift** — the answer / steps (2–4 lines).
4. **Soft CTA** — comment a word / save / follow.

Short lines. Lots of white space. One idea per line.

CTA MENU (END EVERY POST WITH ONE)

- "Comment **'WPS'** for the free checklist."
- "Follow for UAE HR tips."
- "DM **'demo'** to see it in action."
- "Save this for your next payroll."
- "Tag a business owner who needs this."

Hashtags (Instagram — use 5–10 niche ones, not 30 generic)

#HRUAE

#WPS

#PayrollUAE

#DubaiBusiness

#UAEbusiness

#SMEUAE

#HRsoftware

#DubaiSME

#UAEstartups

#HRtech

7 Month 1 (Days 1–30) — do exactly this, in this order

Start on a Monday. Each day has one "big post" (alternating LinkedIn ↔ Instagram) plus the daily engine below. Weekends are light. The first week's posts are written out for you after the calendar — just copy them.

THE DAILY ENGINE — EVERY WORKING DAY (MON–FRI), ~35 MIN

- ☐ **Send 10 new outreach messages** (Scripts A–C & F) to companies from your hit list.
- ☐ **Follow up** with everyone due (Script D). Never skip this.
- ☐ **15 min engaging:** leave thoughtful comments on 10 posts from UAE founders / HR people, and reply to every comment & DM you get.
- ☐ **Post the day's content** at the set time, and post 1 Story.

Best posting times (GST / UAE)

Platform	Best window	Backup	Best days
LinkedIn	8:00–9:30am	12:30pm lunch	Mon–Thu
Instagram feed	1:00pm	7:30–9:00pm	Any; Sun–Thu strong
Stories	8:00am	6:00–8:00pm	Daily

Day 0 — setup (the weekend before you start)

- ☐ Set up both profiles (Section 5). Switch Instagram to Business.
- ☐ Start your hit list — get the first **20 companies** in the sheet.
- ☐ Build the **free "UAE WPS 2026 Compliance Checklist"** in Canva (1–2 pages) — this is your lead magnet.
- ☐ Record 4–5 short screen captures of Evarca (leave approval, payroll run, assigning a task, a checklist, the OKR dashboard) for Reels later.

The Month 1 calendar (Days 1–30)

Day	Big post	Topic	Time
1 • Mon	LinkedIn text	Launch post — "I built Evarca because..." (Founding 10)	8:30am
2 • Tue	Instagram carousel	The WPS rule that can freeze your hiring	1:00pm
3 • Wed	LinkedIn carousel	5 things eating your week — HR + ops (+ the fix)	8:30am
4 • Thu	Instagram reel	Screen rec: "Approve leave in one tap"	8:00pm
5 • Fri	LinkedIn text	Build-in-public: what owners keep telling me	8:30am
6 • Sat	Light	Engage 20 posts · Story poll · prep next week	—
7 • Sun	Instagram carousel	How to calculate UAE gratuity (with example)	1:00pm
8 • Mon	LinkedIn text	"The 15-day WPS grace period is gone" (2026 change)	8:30am
9 • Tue	Instagram reel	Screen rec: "Run payroll in 3 minutes"	1:00pm
10 • Wed	LinkedIn carousel	New-hire onboarding checklist for UAE	8:30am

Day	Big post	Topic	Time
11 · Thu	Instagram carousel	5 signs you've outgrown spreadsheets + WhatsApp	1:00pm
12 · Fri	LinkedIn text	3 HR mistakes that cost UAE companies money	8:30am
13 · Sat	Light	Engage · Story quiz "Excel or app?" · prep	—
14 · Sun	Instagram reel	Screen rec: "See who's in today, from your phone"	1:00pm
15 · Mon	LinkedIn carousel	WPS enforcement timeline: day 2 → day 5 → day 21	8:30am
16 · Tue	Instagram carousel	One customizable platform vs 5 rigid apps	1:00pm
17 · Wed	LinkedIn text	Lesson from onboarding the first pilots	8:30am
18 · Thu	Instagram reel	Screen rec: leave request → approve via WhatsApp	8:00pm
19 · Fri	LinkedIn text	Build-in-public: week 3 numbers & what I learned	8:30am
20 · Sat	Light	Engage · Story behind-the-scenes · prep	—
21 · Sun	Instagram carousel	Free WPS checklist push — "comment WPS"	1:00pm
22 · Mon	LinkedIn carousel	Before/after: payroll from 2 days → 20 minutes	8:30am
23 · Tue	Instagram reel	Screen rec: dashboard tour — HR + tasks + OKRs (30s)	1:00pm
24 · Wed	LinkedIn text	"Nobody talks about this UAE HR rule..."	8:30am
25 · Thu	Instagram carousel	Set OKRs that stick — lead magnet: OKR template	1:00pm
26 · Fri	LinkedIn text	Offer post — "3 Founding 10 spots left"	8:30am
27 · Sat	Light	Engage · Story testimonial · prep	—
28 · Sun	Instagram reel	Screen rec: Evarca + WhatsApp (reminders & approvals)	1:00pm
29 · Mon	LinkedIn text	Month recap + social proof + soft offer	8:30am
30 · Tue	Instagram carousel	Recap tips + CTA · then review your 5 numbers	1:00pm

Weeks 2–4 reuse the same 6 pillars and hooks from Section 6 — you'll never run out. Keep the topics above or swap in whatever's on your mind that week; the rhythm is what matters.

7 Your first week — every post written out

Copy these, tweak the brackets, post at the listed time. Reply to every comment within the first hour — early replies push your reach.

DAY 1 · LinkedIn · text post · 8:30am — your launch

“ POST

After watching UAE business owners lose their weekends to HR and operations admin, I built something.

Attendance tracked on WhatsApp.

Leave buried in Excel.

Payroll copy-pasted by hand.

Tasks and goals scattered across a dozen chats.

And one missed WPS deadline away from being blocked from new work permits.

So we built Evarca — one screen for HR (attendance, leave, payroll), daily tasks and checklists, and team goals (OKRs). Fully WPS-compliant.

We're onboarding 10 UAE companies free for 3 months — and we do the setup for you.

If you run a 10–100 person team in the UAE, comment **"EVARCA"** and I'll send you a 90-second demo.

DO RIGHT AFTER POSTING

Put your demo link in the **first comment** (not the post). Reply to every "EVARCA" comment within minutes and slide into DMs with Script B.

DAY 2 · Instagram · carousel · 1:00pm — WPS pain

“ SLIDES (ONE LINE EACH)

- 1 · The UAE WPS rule that can freeze your hiring in 5 days ⚠️
- 2 · Since June 2026, salaries must hit accounts by the 1st of the month.
- 3 · The old 15-day grace period? Gone (Resolution 340 of 2026).
- 4 · Miss it → day 2 warning → day 5 blocked from new work permits → day 21 travel ban on the owner.
- 5 · The #1 reason companies miss it: messy attendance + manual payroll on spreadsheets.
- 6 · Fix: run attendance, leave & payroll in one system that flags the deadline for you.
- 7 · Comment "WPS" for our free 2026 WPS compliance checklist. Follow @evarca for UAE HR tips.

“ CAPTION

The WPS deadline just got stricter — and most owners don't know. Save this so you don't get caught out 📌

Comment "WPS" and I'll DM you the free 2026 checklist.

#HRUAE #WPS #PayrollUAE #DubaiBusiness #SMEUAE #UAEbusiness #HRsoftware

📄 SLIDES

- 1 · 5 things quietly eating your week (and the 10-minute fix)
- 2 · Chasing attendance on WhatsApp → auto-captured, one dashboard.
- 3 · Approving leave over email → one tap on your phone.
- 4 · Building payroll in Excel → generated in minutes, WPS-ready.
- 5 · "Who's doing what?" across 6 chats → one task board everyone sees.
- 6 · Goals in a forgotten spreadsheet → live OKRs in one screen.
- 7 · All of this lives in one screen. It's called Evarca. Comment "DEMO" for a 90-sec look.

📄 POST CAPTION (LINK GOES IN FIRST COMMENT)

If your team is 10–100 people in the UAE, you're probably doing at least 3 of these by hand.

Here's the 10-minute version of each 👉 (swipe)

Comment "DEMO" and I'll send a 90-second walkthrough.

📄 15–20 SEC SCREEN CAPTURE + ON-SCREEN TEXT

On-screen text sequence:

- "Approving leave shouldn't take 3 emails."
- (show tapping Approve in Evarca) "One tap."
- "Balance updates automatically."
- "That's it."

Caption: Leave approvals in one tap – no email chains, no spreadsheet. This is Evarca. DM "demo" to see the rest. #HRUAE #HRsoftware #DubaiSME #PayrollUAE

Add captions/subtitles on the Reel (boosts reach & search). No TikTok watermark. Use royalty-free trending audio at low volume.

📄 POST

Week 1 of putting Evarca in front of UAE companies.

The same three things keep coming up from owners:

1. "I only find out someone's on leave when they don't show up."
2. "Payroll eats two days every month."
3. "I'm scared of getting WPS wrong."

None of them wanted 'HR software.' They wanted those three headaches gone.

That's the whole reason Evarca exists – one screen, WPS-compliant, built for 10–100 person UAE teams.

What would you add to that list? 👉

“ SLIDES

- 1 · How to calculate UAE gratuity (end-of-service) – simple version
- 2 · Under 5 years: 21 days' basic pay per year of service.
- 3 · Over 5 years: 30 days' basic pay for each year beyond 5.
- 4 · Based on your last basic salary (not total package).
- 5 · Example: 4 years, AED 10,000 basic → 84 days ≈ AED 28,000.
- 6 · Always double-check with MOHRE / a specialist for edge cases.
- 7 · Save this. Follow @evarca for UAE HR made simple.

Compliance content = authority. Keep figures accurate and add "check MOHRE for your case" so you're never giving wrong legal advice.

Bonus — DAY 26 · LinkedIn offer post (re-open the offer with urgency)

“ POST

Quick update: 7 of the 10 Founding spots for Evarca are taken.

If you run a 10–100 person UAE team and you're still juggling HR, tasks and payroll by hand – this is the easiest time to switch:

- Free for 3 months
- We set it up and move your data
- Fully WPS-compliant from day one

3 spots left. Comment **"SPOT"** or DM me and I'll sort you out.

8 The 90-day arc — Months 2 & 3, and what to expect

Month 1 (Sections 5–7) got you launched. Months 2 & 3 keep the **same daily engine** — 10 outreach + 1 post/Story + 15 min engaging — but the focus shifts from **starting** → **proof** → **revenue**.

M1

Launch & Foundation

Profiles live, hit-list built, Founding-10 offer out, content rhythm going.
Goal: your first pilots.

M2

Proof & Momentum

Wow your pilots, turn them into testimonials & case studies, scale outreach + referrals.

M3

Referrals & Revenue

Convert early pilots to paid, build a referral engine, let content bring inbound.

Month 2 — Proof & Momentum (Weeks 5–8)

WHAT CHANGES THIS MONTH

- **Double down on winners.** Check your Month-1 analytics — repeat the 2–3 post types that got the most saves & replies. Drop what flopped.
- **Turn pilots into proof.** Onboard them properly, then collect a one-line testimonial, a before/after number, and permission to use their logo. Each becomes a post (Pillar 6).
- **Publish 1–2 case studies** ("How [Company] cut payroll from 2 days to 20 minutes" / "got their team off WhatsApp").
- **Run the lead-magnet engine weekly:** one "comment WPS / OKR" post each week → DM the template → book demos.
- **Scale outreach:** +30–40 new companies/week, and ask **every** pilot & happy contact for 2 warm intros (Script E). Referrals convert best.
- **Add one channel:** join a niche UAE founder WhatsApp/Telegram group, or attend one event (list in Section 11).

Week	Focus
Week 5	Onboard pilots; ask for first testimonials; repeat your best Month-1 post format.
Week 6	Publish case study #1; start the weekly lead-magnet post; +30 companies to the list.
Week 7	Referral push — ask every pilot for 2 intros; test the operations-angle opener.
Week 8	Case study #2; review analytics; line up Month-3 conversions.

Month 3 — Referrals & Revenue (Weeks 9–12)

WHAT CHANGES THIS MONTH

- **Start converting.** Any pilot already in love? Move them to paid early (conversion script, Section 2), with a small annual-plan discount to lock them in.
- **Build a referral engine:** after every win, ask "who else?"; give a reward (e.g. an extra free month for every referral that starts a pilot).
- **Feed the inbound.** Content + lead magnets now bring DMs — reply within the hour and book demos. Warm beats cold.
- **Proof-led content:** a "logo wall", "X UAE companies now run on Evarca", testimonial carousels.
- **Go slightly bigger:** host a free 20-min live "UAE HR & OKR clinic", or offer a free "HR + ops audit" to warm leads — both create demos.
- **Systematise:** batch a month of content at once, template your outreach, and track which **source** produces pilots so you can do more of it.

Week	Focus
Week 9	Convert your happiest pilot(s) to paid; publish a testimonial post.
Week 10	Launch the referral reward; run the free clinic / audit offer.
Week 11	Logo-wall / "companies that trust us" post; batch next month's content.
Week 12	Review the 90 days by source; keep winners, cut the rest; set Month-4 targets.

What outcomes to expect (realistic — zero budget, solo, faceless)

By end of...	Month 1	Month 2	Month 3
Companies contacted (running total)	~120	~250	~380
Real conversations (that month)	10–20	15–30	20–35
Demos given (that month)	3–7	6–12	10–18
Followers (running total, LI+IG)	300–500	800–1,500	1,500–2,800
Free pilots live (running total)	1–3	4–8	6–12
Testimonials / case studies	0–1	1–3	3–6
Inbound leads / week (end of month)	0–1	1–3	3–6
Paying customers (running total)	0	0–2	2–6

BE HONEST ABOUT REVENUE TIMING (IMPORTANT)

Your Founding-10 pilots are **free for 3 months**, so most convert to paid in **Month 4+**, not inside this 90 days. That's normal for B2B software: the first 90 days build **pipeline and proof**; the real revenue ramp shows in **months 4–6**. Want cash sooner? Offer later cohorts a shorter **30-day free trial** instead of 3 months, or an early-bird paid plan at a discount.

THE ONLY 3 INPUTS THAT MOVE THESE NUMBERS

1. Consistency — did you run the daily engine ~5 days a week? **2. Reply rate** — is your first line personal (aim 5–10%+)? **3. Proof** — are you turning pilots into visible testimonials? If a result is low, the fix is almost always one of these three, **in this order**. Don't chase new tactics until these are solid.

9 Psychology cheat-sheet — what actually makes people act

People don't buy with logic; they justify with it. These are the triggers that move them — and exactly how to use each one for Evarca.

Trigger	Why it works	Use it like this
Loss aversion the strongest	People fear losing far more than they want gaining.	Lead with what they lose : WPS fines, blocked permits, wasted weekends. "Miss the 1st → blocked by day 5."
Specificity	Numbers feel true; adjectives feel like sales.	"Payroll in 3 minutes", "2 days → 20 minutes", "10 free spots" — not "save time".
Social proof	People do what similar people do.	"12 UAE companies run payroll on Evarca." Logos, quotes, "join them."
Authority	We trust experts — and an expert's product.	Teach WPS & UAE labour law accurately. Be the person who explains the rules.
Reciprocity	Give first and people feel they owe you.	Free checklist, free setup, free 3 months → they give you a fair trial & intros.
Scarcity / urgency	Limited things feel more valuable.	"10 spots", "3 left", and the real WPS deadline. Use real limits, never fake timers.
Curiosity gap	An open loop begs to be closed.	"Nobody talks about this UAE HR rule..." → they read on to find out.
Ease	The easier the ask, the more yeses.	"90-second video", "comment one word", "we do the setup." Shrink every ask.

POWER WORDS — USE THESE

Free New Proven Simple Instant
Stop Avoid Mistake Deadline
Compliant Save Finally Without
You / Your Because Imagine In minutes

WORDS TO AVOID — THEY KILL TRUST

solution leverage synergy
revolutionary cutting-edge seamless
robust world-class kindly
state-of-the-art

Also avoid long sentences and feature dumps. One idea per line.

TURN YOUR USPS INTO PERSUASION

- **Escape comparison (category of one).** When you're the only one doing HR + ops + goals, customizable, on WhatsApp — buyers can't line you up against a rival on price. Say "most tools make you choose; we don't."
- **Customization = risk reversal.** "We shape it around your workflow" removes the fear of being forced to change how they work — the biggest silent objection.
- **WhatsApp = familiarity.** People adopt what feels familiar. "It works in the app you already use" beats "learn our new app" every time.

TONE RULES (HOW EVERY MESSAGE & POST SHOULD FEEL)

- Write to **one** busy owner, not "companies". Use "you".
- Short sentences. One idea per line. Plenty of white space.
- Always end on the **outcome**: "...so payroll takes minutes, not days."
- Confident, calm, helpful — never hypey or desperate.

10 Track & improve — 5 numbers, every Friday

Don't track everything. Track these five. If a number is low, the fix is listed. Spend 10 minutes each Friday.

#	Number	Wk1 target	Wk4 target	If it's low, do this
1	Outreach sent	50	50/wk	Block 20 min each morning. Non-negotiable.
2	Replies	3–5	8–12	Under 5%? Make your first line more personal.
3	Demos given	1–2	2–3/wk	Make the ask smaller — send a 90-sec video first.
4	Followers (LI+IG)	+80	+150/wk	Post more carousels; stronger hooks; comment daily.
5	Pilots / paid	0–1	1–3 total	Add proof; tighten the offer; follow up more.

11 Put it on repeat — your daily & weekly routine

This is the whole job, on a loop. Print this page. Tick the boxes. Momentum comes from doing the boring version every day.

EVERY WORKING DAY · ~35 MIN

- ☐ Send **10 new outreach messages** (Scripts A–C, F)
- ☐ Follow up everyone due (Script D)
- ☐ Comment on **10 ICP posts** + reply to all your comments/DMs
- ☐ Post the day's content + **1 Story** at the set time
- ☐ Update your hit-list statuses

EVERY WEEK · ~1–2 HRS (SATURDAY)

- ☐ Batch-make next week's **4 posts** in Canva
- ☐ Add **30 new companies** to the hit list
- ☐ Log your **5 numbers** (Section 10)
- ☐ Ask **2 happy contacts** for referrals (Script E)
- ☐ Pick next week's topics from the 6 pillars

THE 5 GOLDEN RULES (IF YOU FORGET EVERYTHING ELSE)

1. **Outreach every working day.** That's what pays you this month.
2. **Never pitch features.** Pitch the pain you remove and the outcome.
3. **Follow up 5 times.** That's where the clients actually are.
4. **Post consistently, even if small.** Trust compounds.
5. **Give value first** — checklist, tips, free setup. Selling gets easy after.

WHERE TO NETWORK IN PERSON (WARM LEADS, FREE)

Startup Grind Dubai · Meetup "founders/entrepreneur" groups (UAE) · In5 · AstroLabs · Dubai Chamber events · coworking spaces (Nook, Nest, WeWork, Astrolabs). Turn up, be useful, collect contacts, follow up online with Script F.

You don't need to be a marketer. You need to show up daily and follow the plan.

Open this tomorrow at Day 1.
